## Document Revision History

Version	Date	Edited by	Summary of Change
1.0	29 October 2019	Curtis Adams	Initial Draft
1.1	27 January 2020	Curtis Adams	Update screens to reflect HmC changes

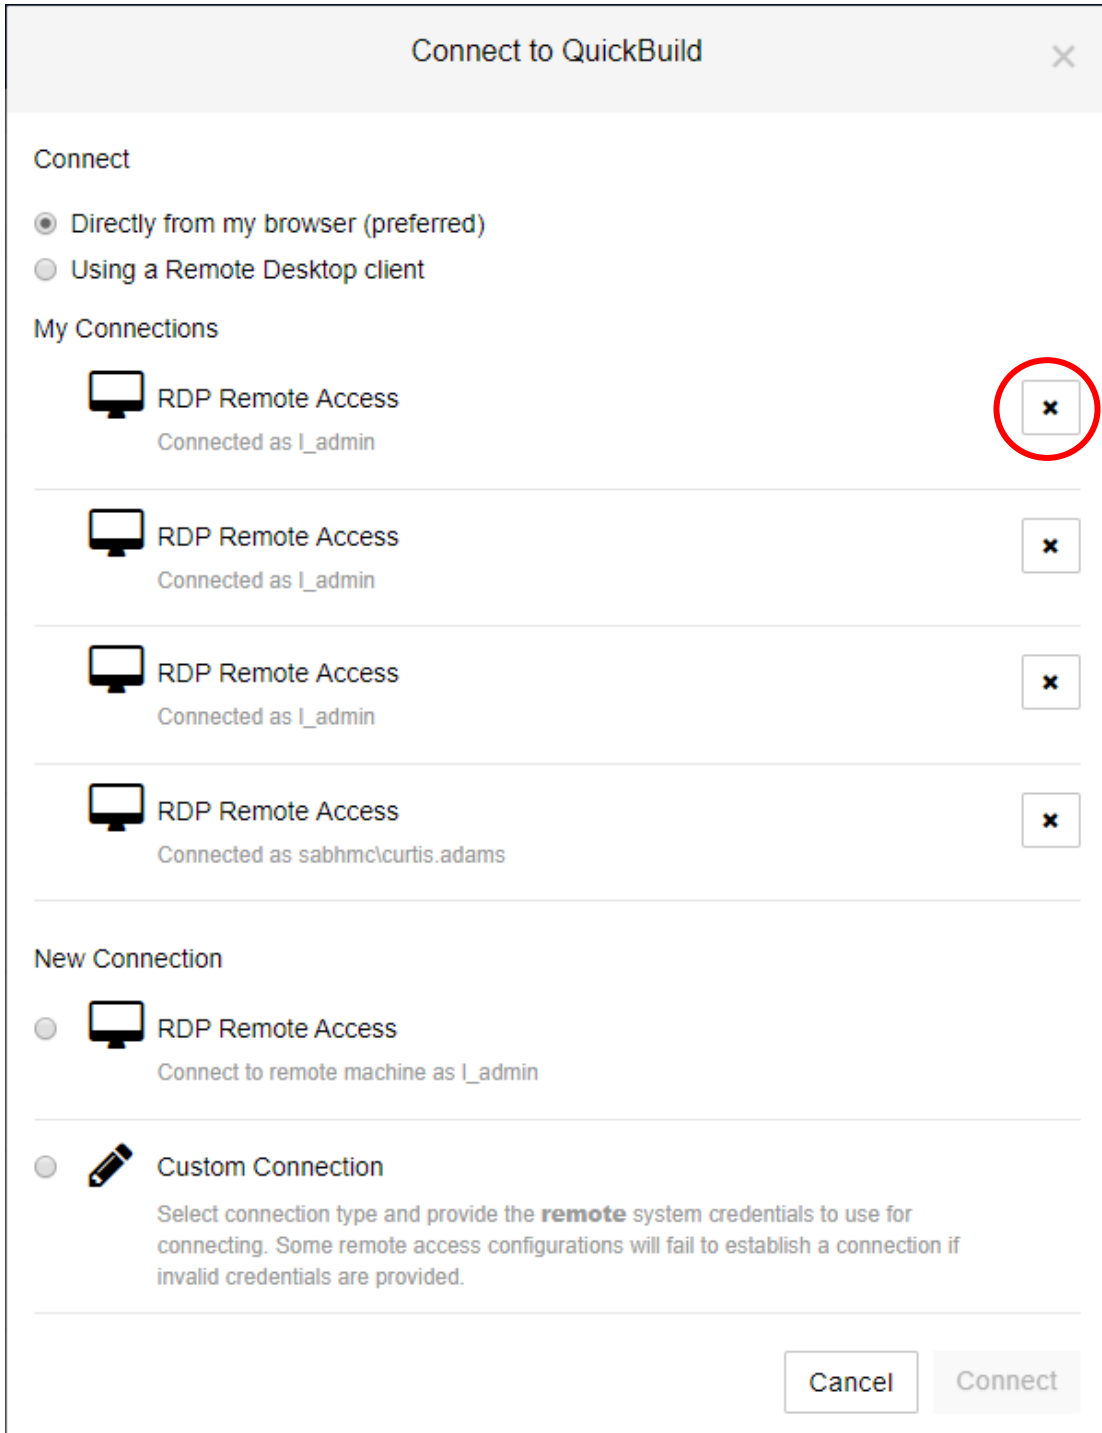

## Table of Contents

1. Extra “My Connections” removal.....2

## 1. Extra “My Connections” removal

Over time as you make new connections in HmC, you may see the list of RDP Remote Access entries grow. These past connections can easily be removed to clean up the **Connect to** window.

1.1. Simply click on the “X” box to the right of each entry in My Connections. This will remove the displayed past entry.

1.2. Once you have removed all your past connections, you can choose to make a new connection or click the Cancel button to close the window.
